Garvit Dani
Full Stack Developer

⊙ Ujjain | ✉ garvitdani@gmail.com | ▢ 9575368173 | in LinkedIn | ○ GitHub | 🗄 Portfolio

OBJECTIVE

Full Stack Developer with hands-on experience in designing, developing, and deploying MERN-based web applications and REST APIs. Seeking a full-stack role to apply practical development skills, contribute to real-world projects, and grow within a professional engineering environment.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript.
- **Frontend:** React.js, Next.js, Tailwind CSS, HTML5, CSS3, Responsive Design.
- **Backend:** Node.js, Express.js, RESTful APIs, JWT-based authentication.
- **Databases:** MongoDB, MySQL, Mongoose .
- **AI Integration:** API-based AI integrations (OpenAI, Groq), AI Chatbot Implementation, Prompt Engineering.
- **Deployment & Tools:** Git, GitHub, Postman, Vercel, Netlify, GitHub Actions (basic CI), Figma

WORK EXPERIENCE

MERN Stack Developer Intern - Geek Theory · **Aug-Nov 2025**

- Designed and developed RESTful APIs using Node.js and Express to support production web applications.
- Implemented secure authentication workflows using JWT and Bcrypt, reducing unauthorized access .
- Integrated AI-powered chatbot features using OpenAI and Groq APIs, increasing user interaction by ~25%.
- Built reusable and responsive React components, ensuring consistent UI across devices.
- Applied frontend performance optimizations such as lazy loading and optimized component rendering, reducing page load time by ~40%.

PROJECTS

Geek Theory - IT Solutions Website · **Aug–Sep 2025**

- Designed and developed a modern IT solutions website using React with a fully responsive UI.
- Built secure backend APIs using Node.js and Express to manage application data and workflows.
- Implemented authentication and automated email workflows for user communication.
- Optimized metadata, sitemap, and robots configuration, achieving Lighthouse performance and SEO scores of 90+.
- Reduced initial page load time by ~40% through optimized assets and efficient component structure.
- **Tech Stack**: React.js, Node.js, Express.js, MySQL, Tailwind CSS, REST APIs, JWT, Groq APIs
- **Live**: geektheo.com ↗

Sai.Skilledu - AI Powered Study Assistant · **Sep-Oct 2025**

- Engineered a full-stack AI-based study assistant delivering accurate academic query responses.
- Implemented subject mismatch detection and personalized study history, improving recommendation .
- Developed secure authentication with JWT and OTP-based password recovery.
- Integrated automated email notifications using Nodemailer.
- Improved user engagement by ~35% through AI-assisted responses and UX enhancements.
- **Tech Stack**: React, Tailwind CSS, Node.js, Express.js, MySQL, Groq API, Nodemailer.
- **Live**: sai.skilledu.in ↗

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science Engineering · **2022 – 2026**
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) | CGPA-7.64
